

Phase 1: Brainstorming & Ideation Phase

PROJECT NAME

Pocket Smart AI

OBJECTIVE

Define the core vision, target audience, and key value proposition for a portable, pocket-sized AI application/device.

KEY IDEAS & CONCEPTS

- Context-aware personal AI assistant accessible on the go.
- Instant offline/online task assistance, voice-to-text summaries, and rapid query resolution.
- Lightweight design focusing on low latency, privacy, and personal productivity.

TARGET AUDIENCE

Students, busy professionals, researchers, and remote workers needing quick AI assistance on mobile or compact hardware.
